

Petition Calling for Improved 389 Bus Services

To the Honourable Speaker and Members of the Legislative Assembly in New South Wales. The petition of the people of New South Wales brings to the attention of the House:

The 389 bus service is increasingly *unreliable*, and passengers report buses late on both weekdays and weekends.

Inner city residents require reliable access to the Central Activity District for work, shopping, and recreation.

The State Transit Authority says that traffic congestion causes problems for the 389 bus, but if more people use the bus, there would be less traffic.

People will use the 389 bus service if it is regular and reliable.

The undersigned petitioners therefore ask that the Government urgently improve the 389 bus service to make it more reliable.
