

Petition Calling for Increased and Expanded Inner City Alcohol and Drug Services

To the Honourable the Speaker and Members of the Legislative Assembly of New South Wales. This Petition of the people of New South Wales brings to the attention of the House:

Alcohol and drug abuse is concentrated in the inner city, which is also the most densely populated part of Australia, impacting on many other residents.

The NSW Government's Alcohol Summit identified gaps in alcohol and drug services and called on Government action to increase services.

The community needs an expanded and wider range of detoxification, treatment and rehabilitation services for people with alcohol and drug problems, in order to meet the needs of those seeking help with alcohol and drug problems.

The undersigned petitioners therefore ask the Legislative Assembly to urgently increase the level of funding for alcohol and drug services, and expand the range and availability of these services.
